1 Overview

You have now received the **2021-Q1 geocoding dataset**. Each year millions of new addresses and corrections are made to the geocoding data. Using the most up-to date address data will help you to achieve a higher match rate and more-accurate matches.

1.1 Who should install?

All clients that use CRA *Wiz* and Fair Lending *Wiz* as their geocoding provider should install this update.

1.2 Where to install

The update should be installed only on the server. To find the current location of your geocoding data go to **System Maintenance** > **Data and Application Mapping** and check the path next to **Geocoding Data – 2010**. If you do not have access to the application, below is a SQL Query that can be run to determine the current location of the data:

```
use objectstore
select Location from dbo.elementlocations
where ElementName='Geocoding Data - 2010'
```

1.3 Prerequisites

CRA *Wiz* and Fair Lending *Wiz* 7.5 recommended.

1.4 Required permissions

The geocoding installer uses an executable to write files to a drive of your choice. A Windows administrator account is recommended.

1.5 Required disk free space

Full US: 10GB
Central: 4.5GB
Midwest: 4.0GB
Northeast: 5GB
Southwest: 4.2GB
Southeast: 5.0GB
Western: 5.0GB

1.6 Approximate install time

Full US: approximately seven (7) minutes.
Central: 4 minutes
Midwest: 4 minutes
Northeast: 4 minutes
Southwest: 3 minutes
Southeast: 3 minutes
Western: 3 minutes

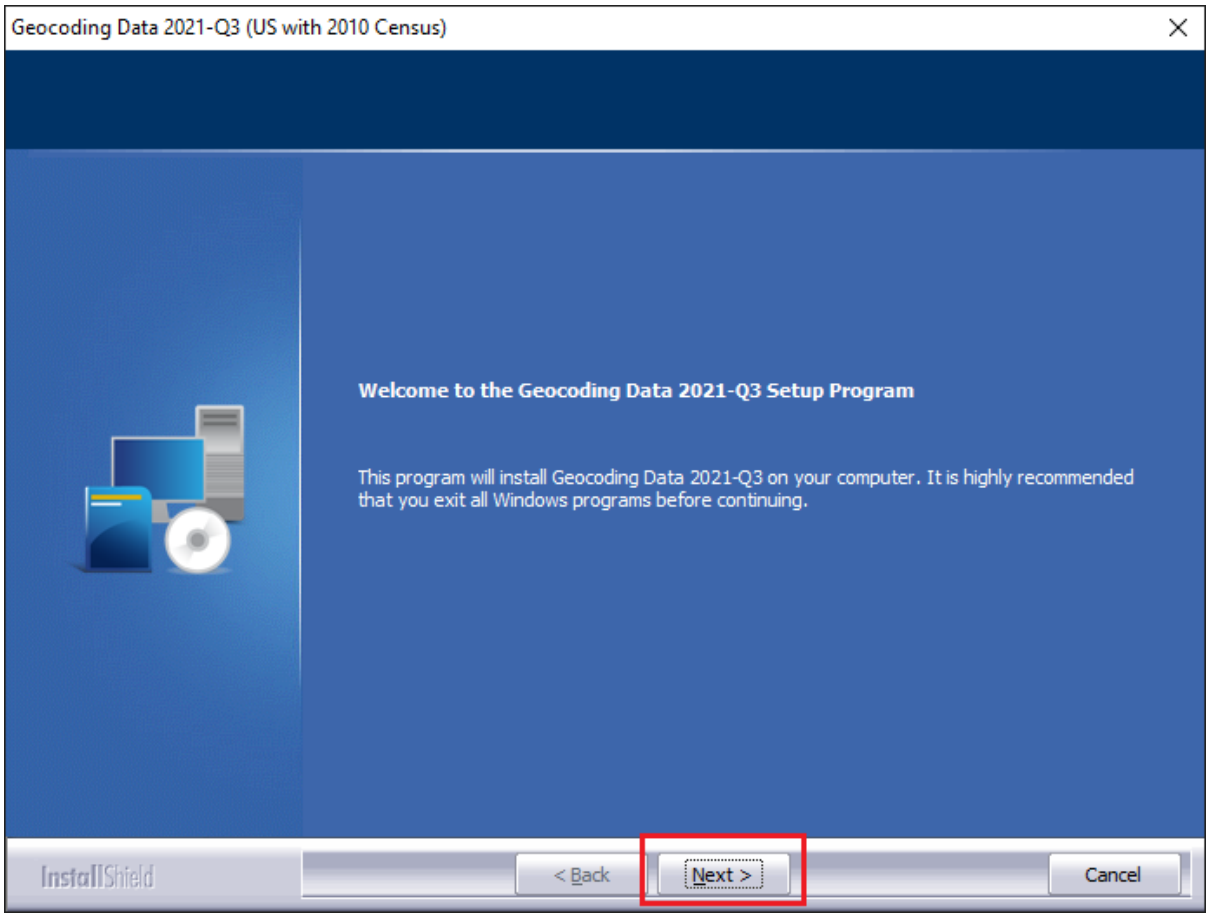
2 Installation Instructions

To install geocoding data, do the following:

1. Using the **2021-Q1 Geocoding Data Install**, run the **Setup.exe.**

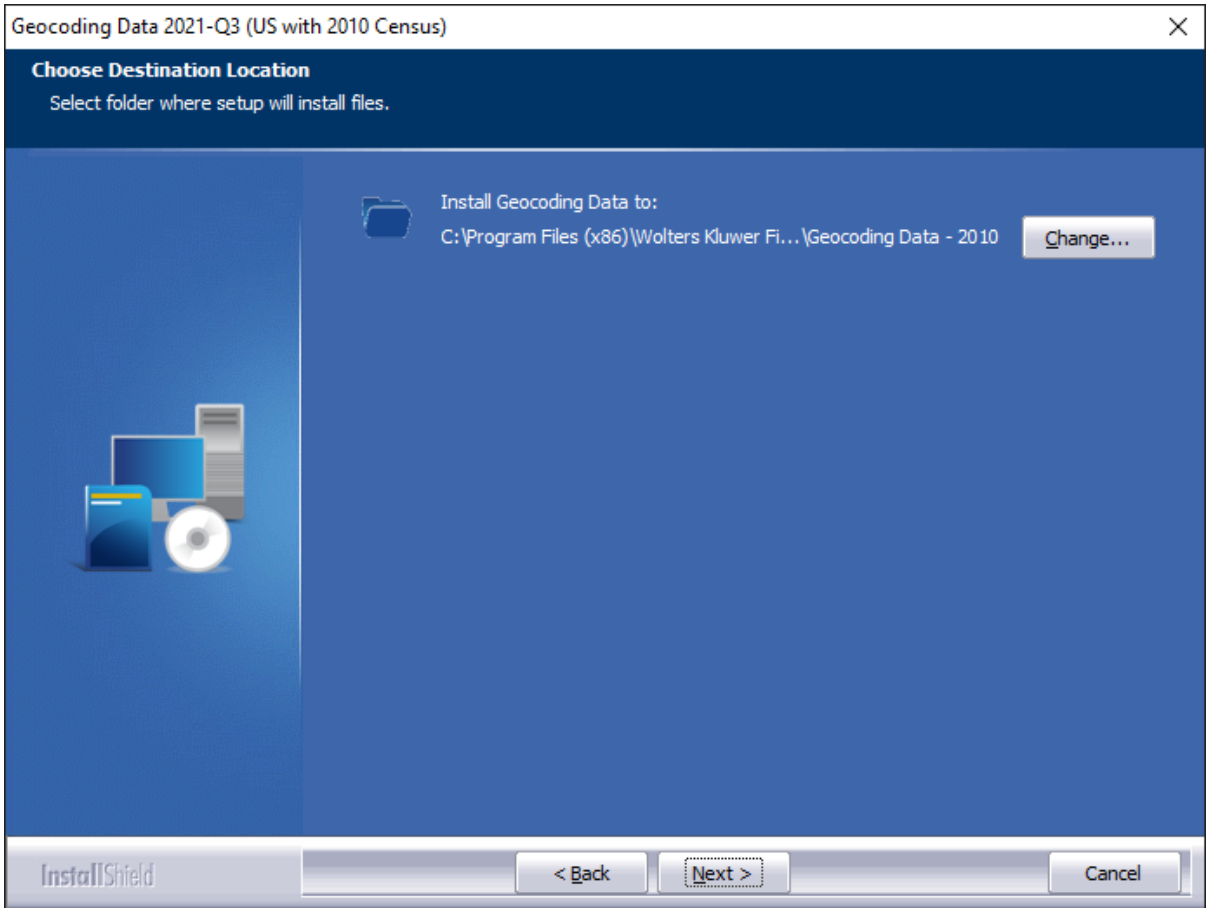
   The installer displays the **Welcome** screen:



2. Click the **Next** button.
   The installer displays the **Choose Destination Location** screen.

© 2021 Wolters Kluwer

3. In the **Choose Destination Location** screen, do one of the following:



- If you want to accept the default installation location:

  C:\Program Files (x86)\Wolters Kluwer Financial Services\Geocoding Data – 2010

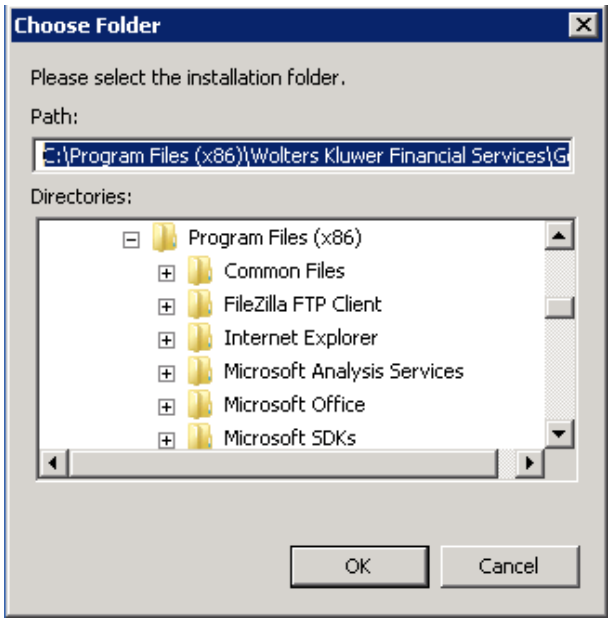
  …click the **Next** button. The installer displays the **Ready to the Install Program** screen. For procedures, go to **Page 7**.

- If you want to select a location to install the data, follow these steps:

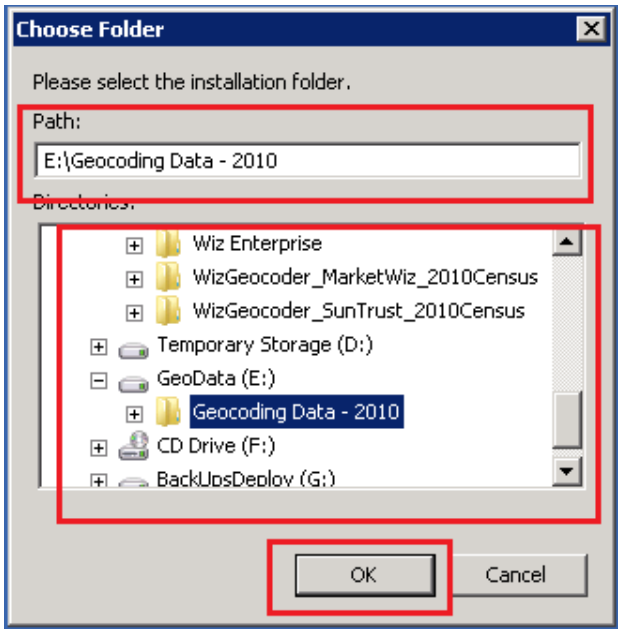
  3.1. Click the **Change…** button:

© 2021 Wolters Kluwer

The installer displays the **Choose Folder** dialog box:



3.2. Use the dialog box controls to select an installation location:



3.3. Click the **OK** button.

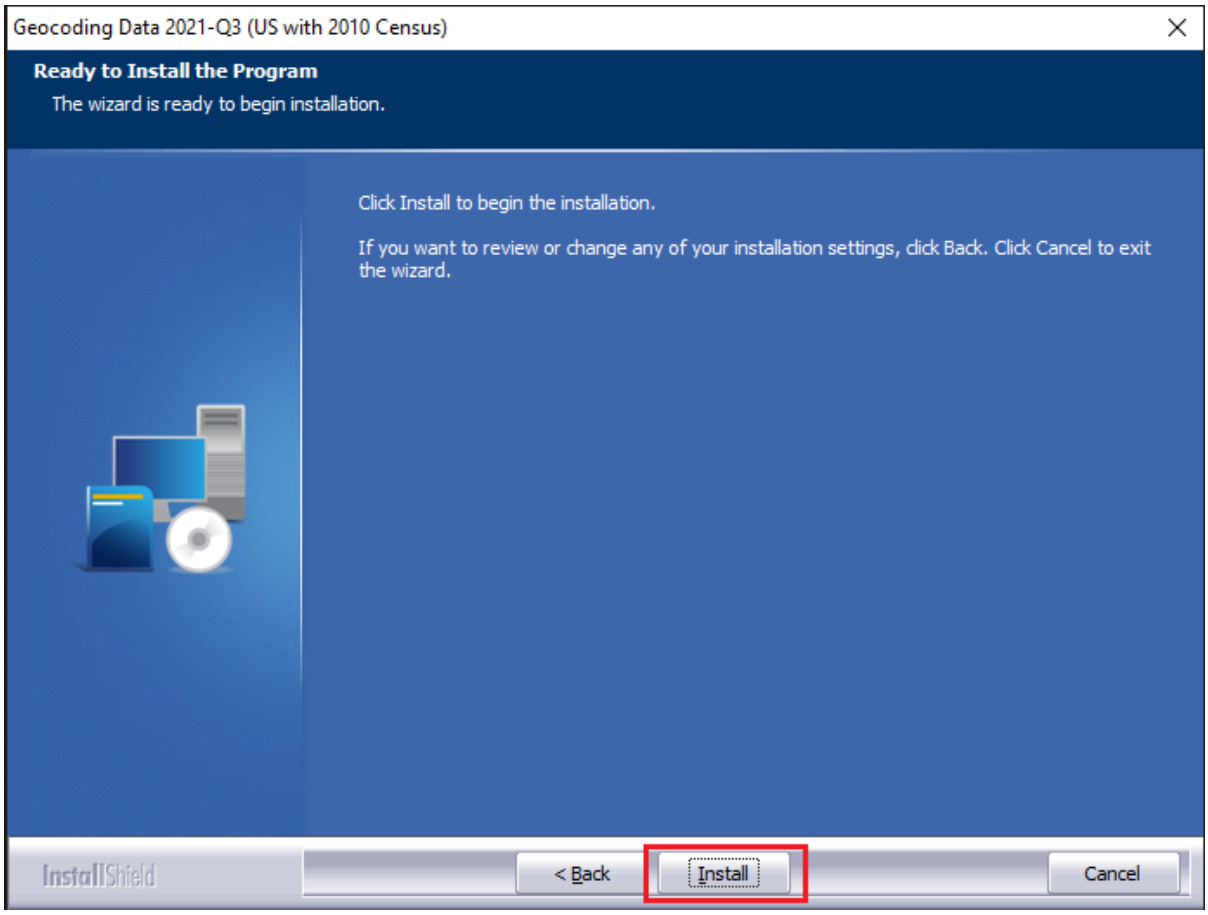
The installer closes the Choose Folder dialog box.

3.4. In the Choose Destination Location screen, click the **Next** button.

The installer displays the **Ready to Install the Program** screen.

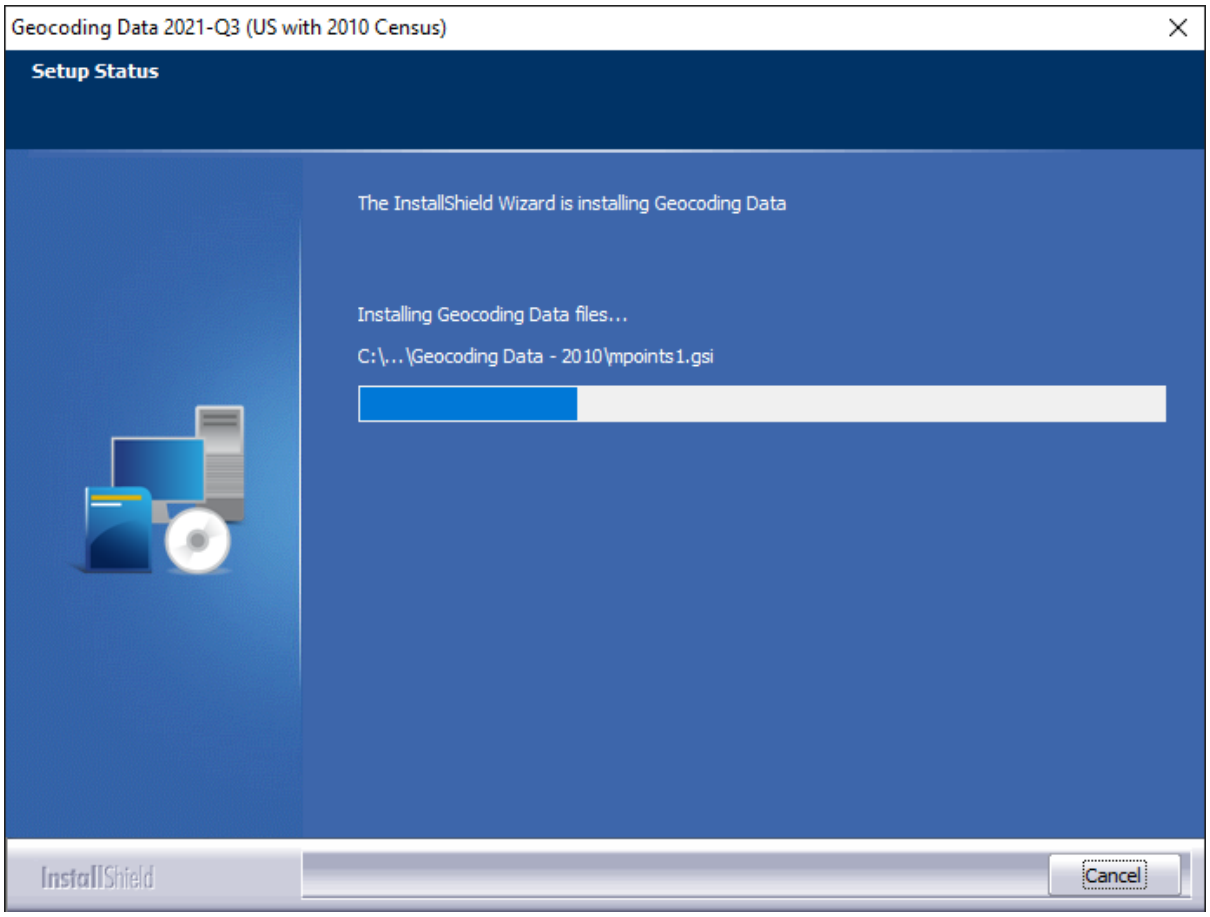
© 2021 Wolters Kluwer

4. In the **Ready to Install the Program** screen, click the **Install** button to start the installation:



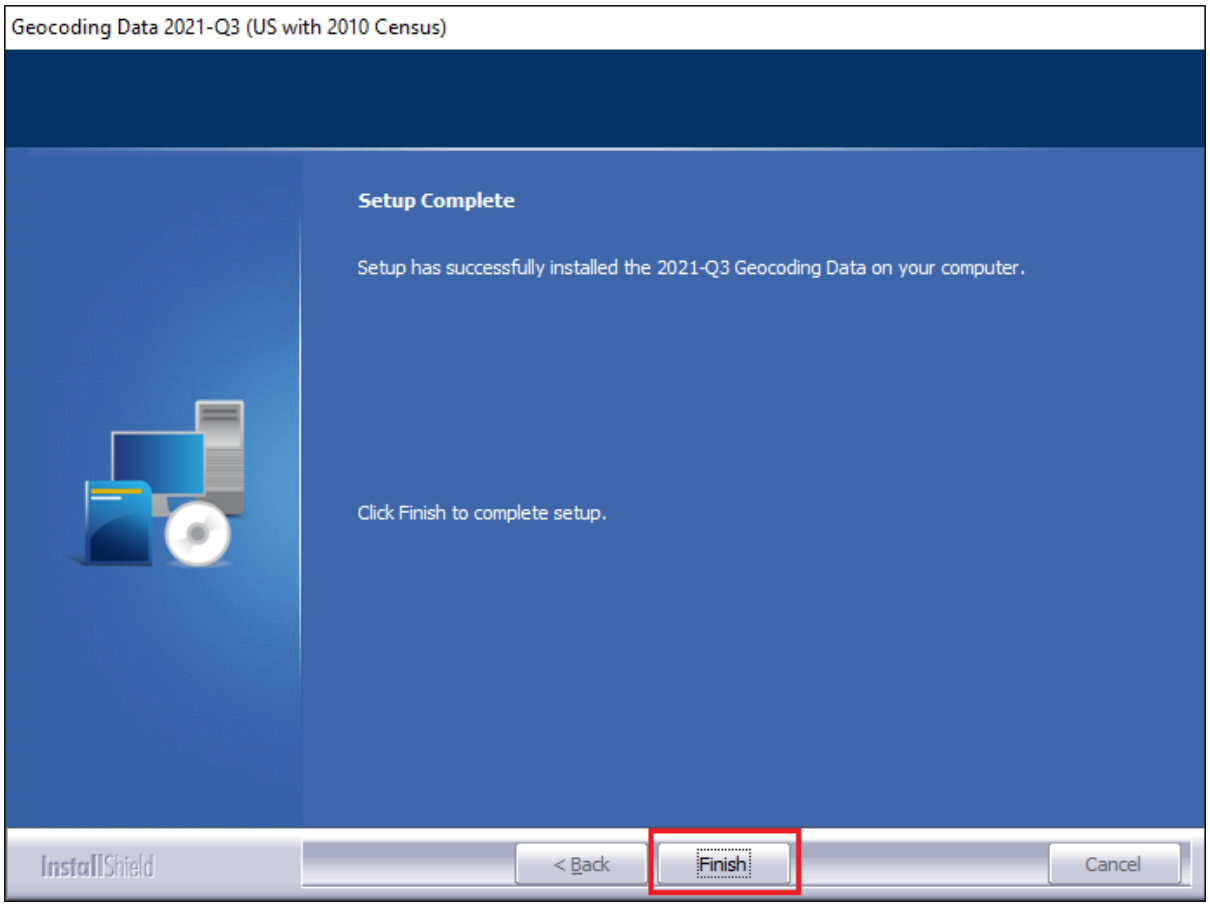
The installer displays the **Setup Status** screen:

© 2021 Wolters Kluwer



© 2021 Wolters Kluwer

When installation is complete, the installer displays the **Finish** screen:



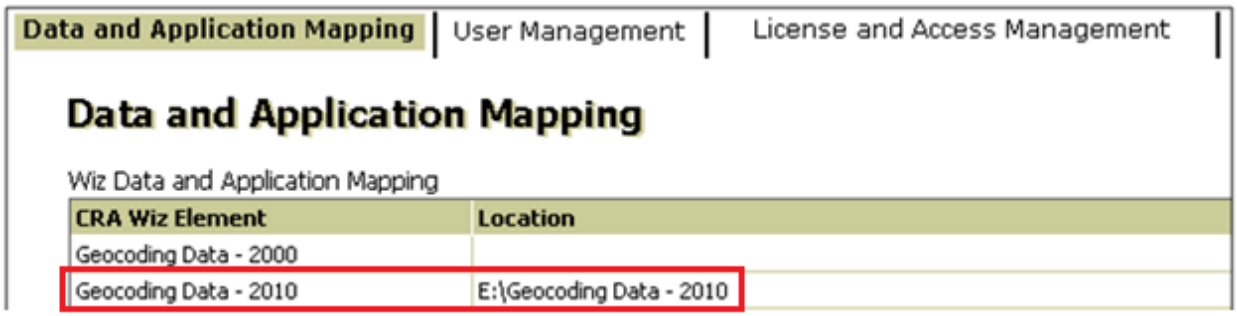
5. Click the **Finish** button to exit.

© 2021 Wolters Kluwer

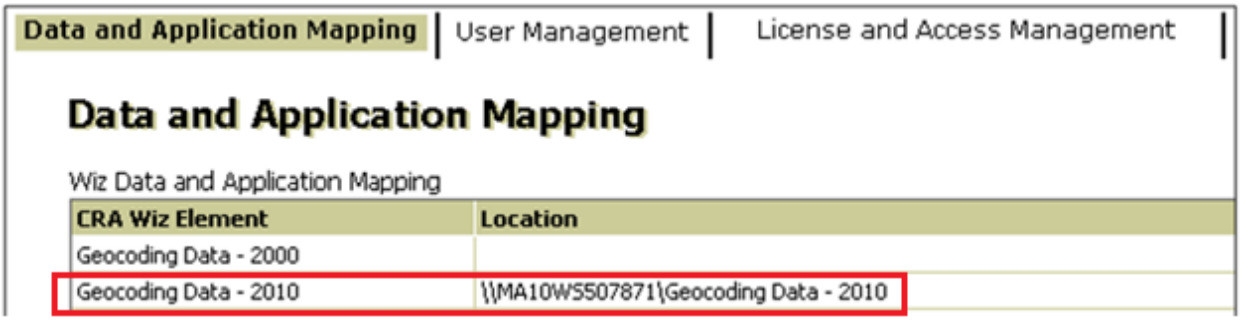
3 Note about Geocoding Data Path

If you have installed Geocoding Data in a client/server environment **for the first time**, you need to update the geocoding data path to a **shared folder** (i.e., instead of the drive letter that the installer uses). This path can be updated using the **Data and Application Mapping** section of the CRA *Wiz* and Fair Lending *Wiz* **System Maintenance** screen (as seen below).

Before:



After:



Important: Please note that if you do not have access to CRA *Wiz* and Fair Lending *Wiz* you can update these paths by modifying the **Geocoding Data – 2010** path in the **dbo.Elementlocations** table located in the **Objectstore** database:

© 2021 Wolters Kluwer

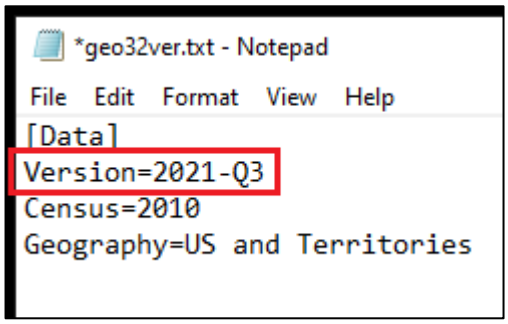
4 Confirming Installation

In **CRA *Wiz* and Fair Lending *Wiz***, do the following:

1. Go to **Main** > **System Maintenance**.
2. Note the path listed next to the **Geocoding Data 2010** entry.

In **Windows**, do the following:

1. Launch **Windows Explorer**.
2. Use Windows Explorer to navigate to the path you noted in **Step 2** above.
3. Open the **geo32ver.txt** file in a text editor (such as **Notepad**). You should see the version below:



If you do not see this version information, either the install did not complete successfully or the path in System Maintenance is incorrect.
