1 Overview

You have now received the **2022-Q1 geocoding dataset**. Each year millions of new addresses and corrections are made to the geocoding data. Using the most up-to date address data will help you to achieve a higher match rate and more-accurate matches.

1.1 Who should install?

All clients that use *CRA Wiz* and *Fair Lending Wiz* as their geocoding provider should install this update.

1.2 Where to install

The update should be installed only on the server. To find the current location of your geocoding data go to **System Maintenance > Data and Application Mapping** and check the path next to **Geocoding Data – 2020**. If you do not have access to the application, below is a SQL Query that can be run to determine the current location of the data:

```
use objectstore
select Location from dbo.elementlocations
where ElementName='Geocoding Data - 2020'
```

1.3 Prerequisites

CRA Wiz and *Fair Lending Wiz* 7.5 Service Pack 1 (SP1) is recommended.

1.4 Required permissions

The geocoding installer uses an executable to write files to a drive of your choice. A Windows administrator account is recommended.

1.5 Required disk free space and install times

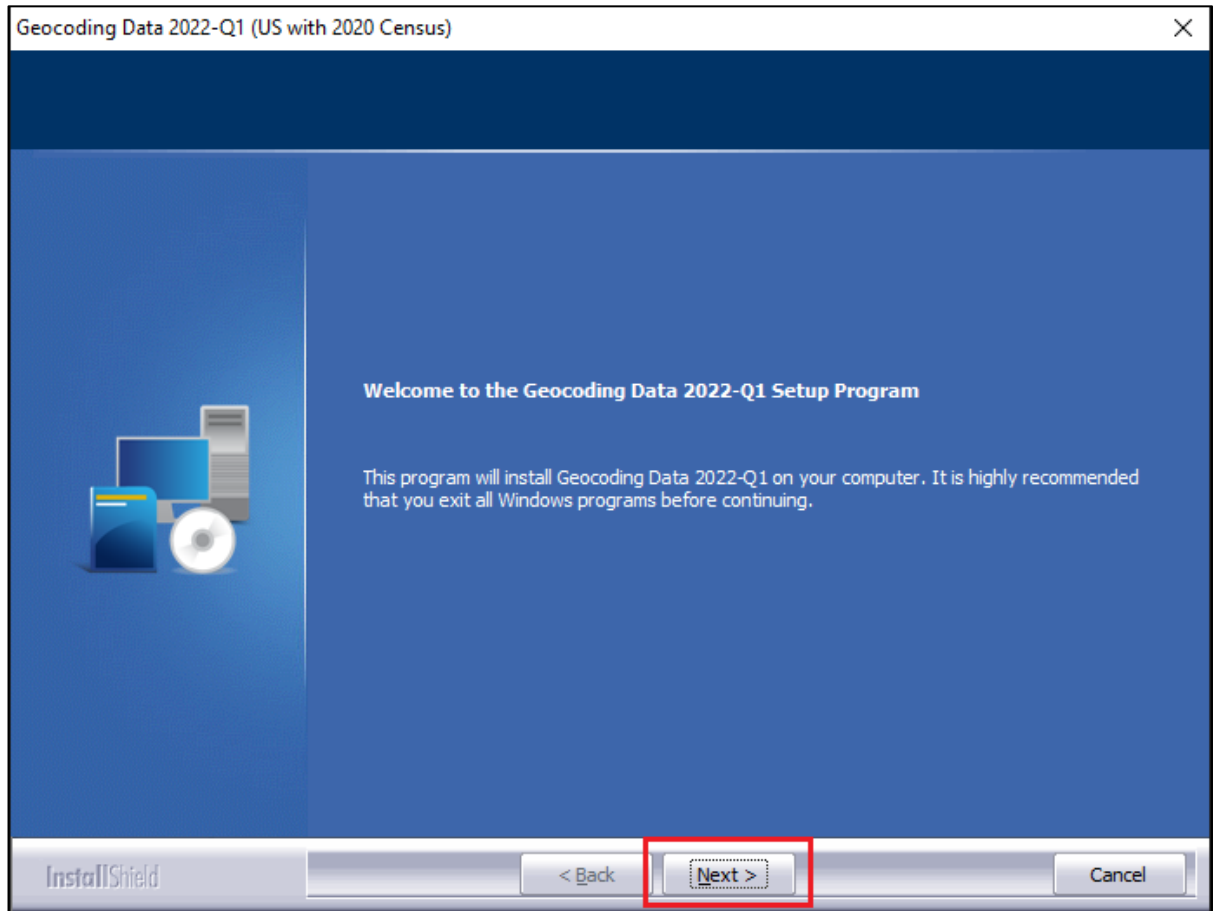

Geodata	Actual Space Required	Time
US	13.9 GB	5 Minutes

2 Installation Instructions

To install geocoding data, do the following:

1. Using the **2022-Q1 Geocoding Data Install**, run the **Setup.exe**.

The installer displays the **Welcome** screen:

2. Click the **Next** button.

The installer displays the **Choose Destination Location** screen.

3. In the **Choose Destination Location** screen, do one of the following:

- If you want to accept the default installation location:

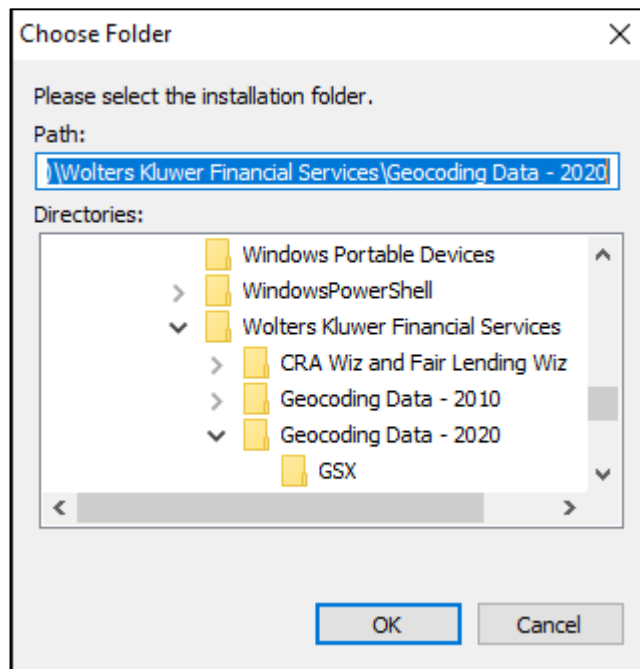

C:\Program Files (x86)\Wolters Kluwer Financial Services\Geocoding Data – 2020

...click the **Next** button. The installer displays the **Ready to the Install Program** screen. For procedures, go to **Page 7**.

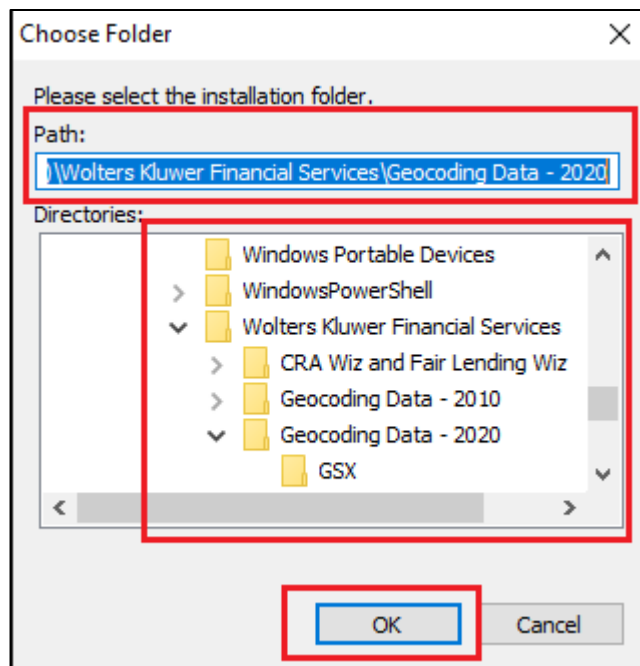

- If you want to select a location to install the data, follow these steps:
 - 3.1. Click the **Change...** button:

The installer displays the **Choose Folder** dialog box:

3.2. Use the dialog box controls to select an installation location:

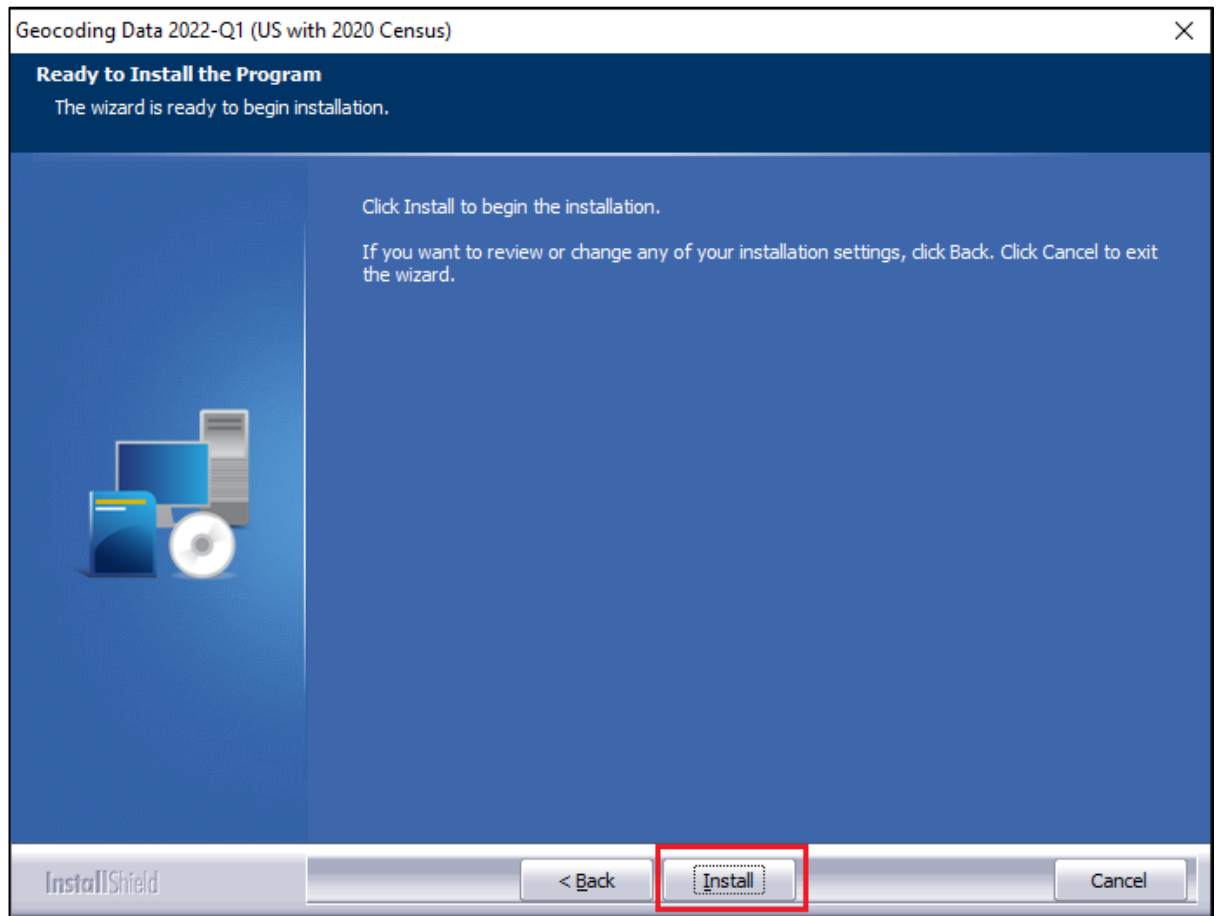

3.3. Click the **OK** button.

The installer closes the Choose Folder dialog box.

3.4. In the Choose Destination Location screen, click the **Next** button.

The installer displays the **Ready to Install the Program** screen.

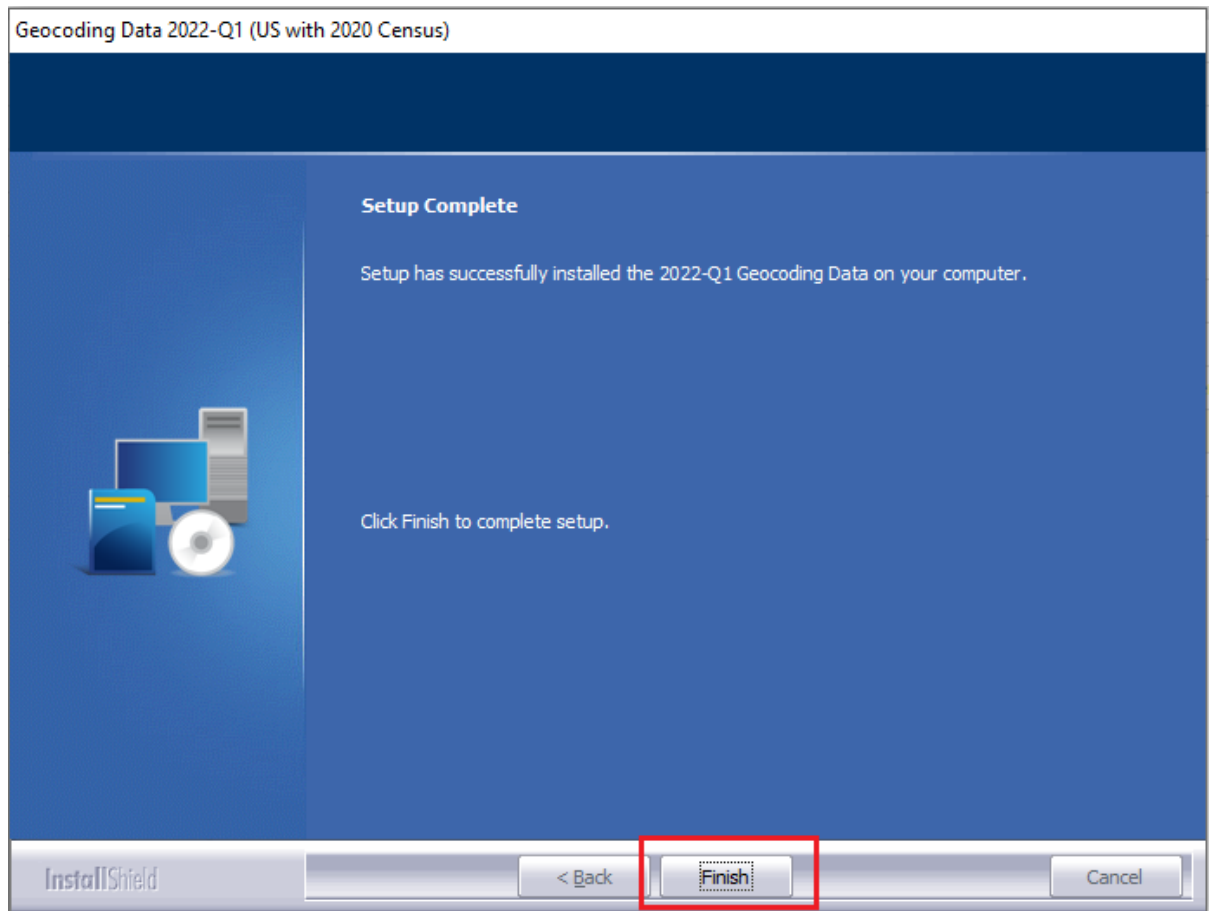

4. In the **Ready to Install the Program** screen, click the **Install** button to start the installation:

The installer displays the **Setup Status** screen:

When installation is complete, the installer displays the **Finish** screen:

5. Click the **Finish** button to exit.

3 Note about Geocoding Data Path

The **2022-Q1 Geocoding Data update** is the first update for **2020 Census Boundaries**. As a result, you need to update the geocoding data path to a **shared folder** (i.e., instead of the drive letter that the installer uses). This path can be updated using the **Data and Application Mapping** section of the CRA *Wiz* and Fair Lending *Wiz* **System Maintenance** screen (as seen below):

CRA Wiz Element	Location
Geocoding Data - 2020	C:\Program Files (x86)\Wolters Kluwer Financial Services\Geocoding Data - 2020
Geocoding Data - 2010	C:\Program Files (x86)\Wolters Kluwer Financial Services\Geocoding Data - 2010\2021 Q4

Important: Please note that if you do not have access to CRA *Wiz* and Fair Lending *Wiz* you can update these paths by modifying the **Geocoding Data – 2010** path in the **dbo.ElementLocations** table located in the **Objectstore** database:

ElementName	Location
1 Database File Location on Server	C:\Program Files (x86)\Wolters Kluwer Financial Services\CRA Wiz and Fair Lending Wiz\Data\
2 Geocoding Data - 2010	C:\Program Files (x86)\Wolters Kluwer Financial Services\Geocoding Data - 2010\2021 Q4
3 Geocoding Data - 2020	C:\Program Files (x86)\Wolters Kluwer Financial Services\Geocoding Data - 2020

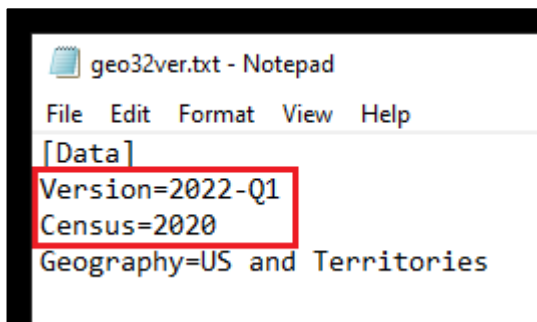

4 Confirming Installation

In **CRA Wiz** and **Fair Lending Wiz**, do the following:

1. Go to **Main > System Maintenance**.
2. Note the path listed next to the **Geocoding Data 2020** entry.

In **Windows**, do the following:

1. Launch **Windows Explorer**.
2. Use Windows Explorer to navigate to the path you noted in **Step 2** above.
3. Open the **geo32ver.txt** file in a text editor (such as **Notepad**). You should see the version below:

If you do not see this version information, either the install did not complete successfully or the path in System Maintenance is incorrect.

5 Testing Addresses

The addresses below can be used to test that your geocoding data has been updated. Each address will receive an exact parcel match with the latest geocoding data:

225 GRANNY SMITH RD
LINDEN VA 22642

1124 PEPPER RIDGE DR
READING PA 19606

18 OAK RIDGE DRIVE
COLUMBIA IL 62236

20195 WILLOW GLADE CIR
PILOT POINT TX 76258

723 CEDAR ST
MOUNT SHASTA CA 96067
