Overview

This update provides the latest business demographic data for use in performance context analysis of small business lending.

Data Source

Dunn and Bradstreet

Who Should Install

Any client licensed for Business Demographic Data should install this update. To determine if you are licensed for Business Demographic Data, go to the **System Maintenance** screen and select **License and Access Management**.

Prerequisites

CRA Wiz and Fair Lending Wiz 7.1 is required to install this update. To check your CRA Wiz and Fair Lending Wiz version, go to the program menu bar and select **Help > About CRA Wiz**. Build numbers starting with "71" are acceptable.

Required permissions

This update is installed as a single table on your SQL server, so both Windows read/write permissions and SQL Server table creation permissions are required. Wolters Kluwer Financial Services recommends that the user running the install have both Windows admin and SQL Server admin login credentials.

Required free space

Approximately 1 GB

Approximate install time

5 to 10 minutes

Installation Instructions

To install 2016 Business Demographic Data, follow these steps:

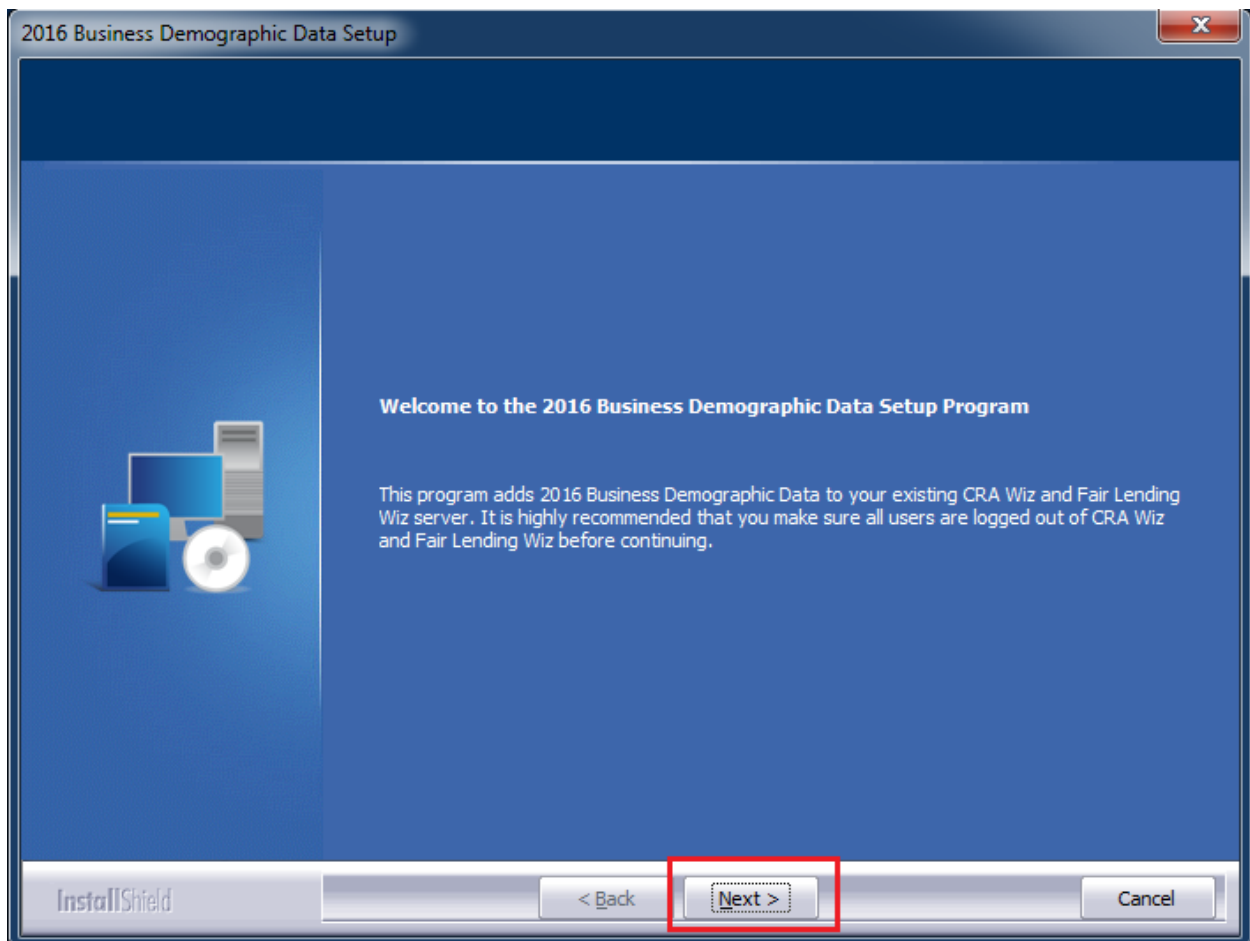

1. After downloading the update, locate and double-click the **2016BusinessDemographicData** installation file.

The installer displays the **Welcome** screen.

2. Follow the directions for each of the following screens.

Welcome Screen

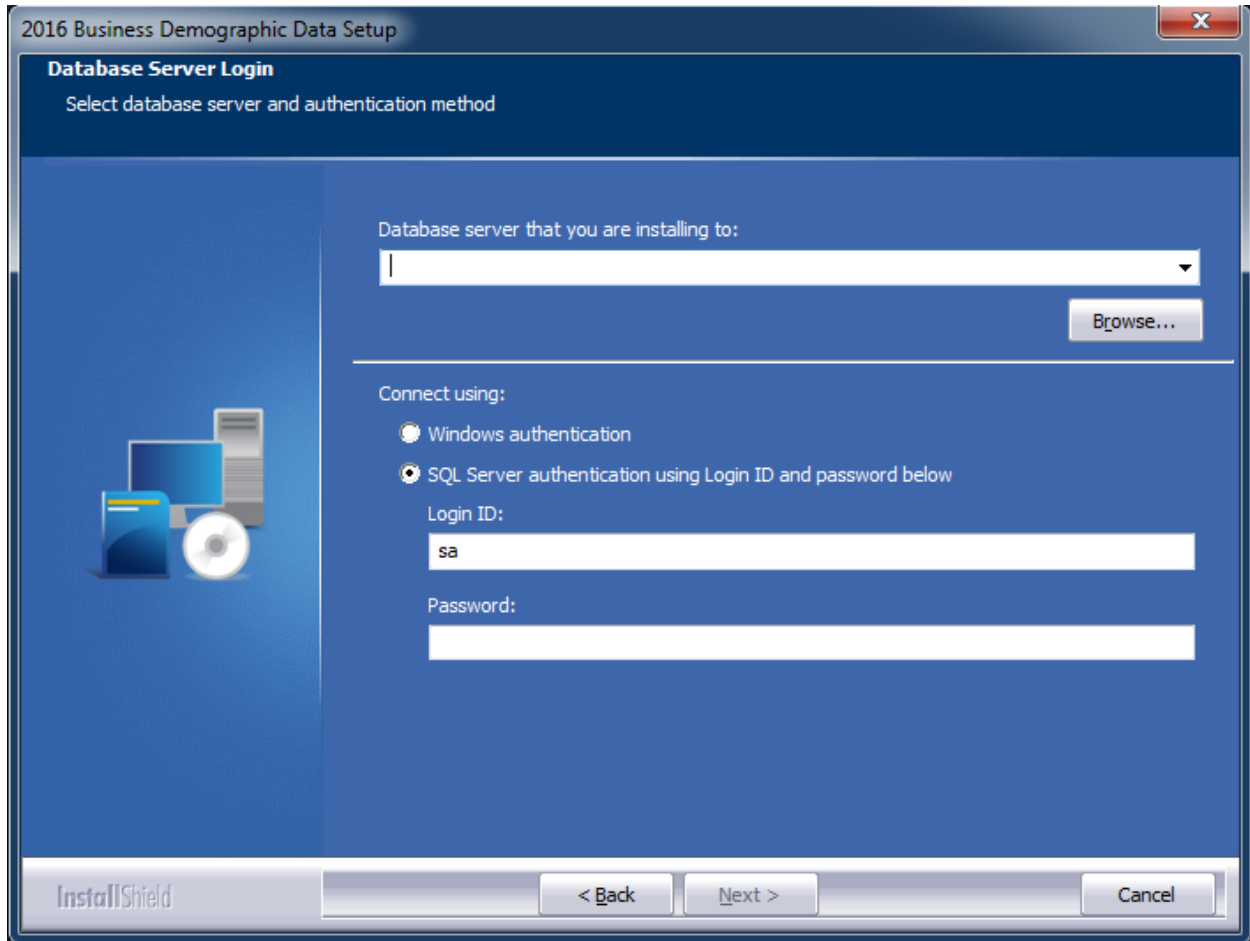

Click the **Next** button:

The software displays the **SQL Server Login** screen.

SQL Server Login Screen

Use this screen to enter the name of the **SQL Server** and to configure authentication options:

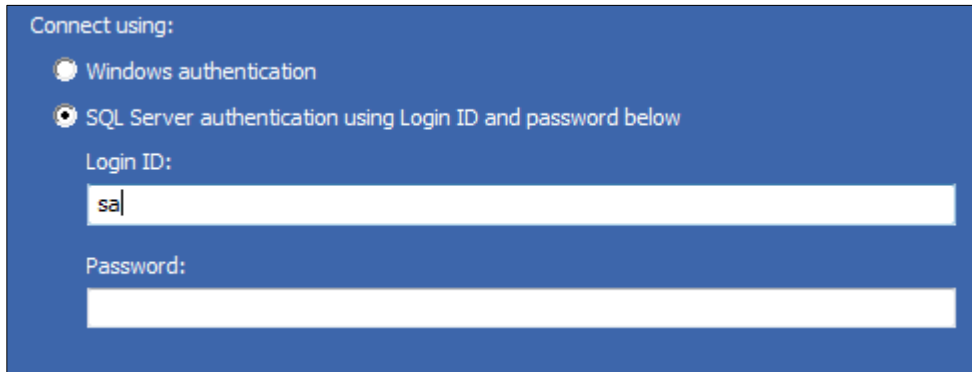

Note: The software displays the Database Server Login screen only if the computer on which you are installing the update is running **SQL Server**. If the installer does not detect SQL Server on your computer, the installer displays the [Ready to Install the Program](#) screen.
