#### **Overview**

On August 25, 2015, the FFIEC released the complete set of 2014 Peer Small Business data. This update allows users to incorporate this data into their CRA *Wiz* reporting and analysis.

#### **Data source**

**FFIEC** 

#### Who should install

Any client licensed for Peer Small Business Data should install this update. To determine if you are licensed for Peer Small Business Data, go to the **System Maintenance** screen and select **License and Access Management**.

#### **Prerequisites**

**CRA** *Wiz* and Fair Lending *Wiz* 6.9 or 7.0 is required to install this update. To check your CRA *Wiz* and Fair Lending *Wiz* version, go to the program menu bar and select **Help > About CRA Wiz**. Build numbers starting with "69" or "70" are acceptable.

#### **Required permissions**

This update is installed as a single database, so both Windows read/write permissions and SQL Server database creation permissions are required. Wolters Kluwer Financial Services recommends that the user running the install have both a Windows admin and SQL Server admin login credentials.

#### Required free space

400MB

#### Approximate install time

10 minutes

#### **Confirming installation**

Once the installation is complete, you can verify the installation by selecting the **File Management** option in the CRA *Wiz* and Fair Lending *Wiz* sidebar. You will also need to set Census boundaries to 2010, located in the **Options** menu bar item. The software will then display a file named **2014 Peer Small Business Data** in the **Peer Small Business Data** folder of the **File Management** screen.

**Note**: The CRA *Wiz* and Fair Lending *Wiz* build number (as found in Help > About CRA Wiz) is not updated by the 2014 Peer Small Business Data installer.

#### **Installation Instructions**

To install 2014 Peer Small Business Data, follow these steps:

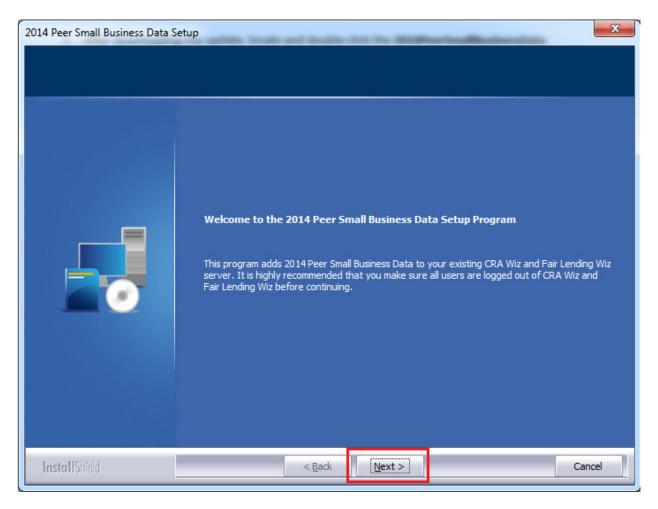

1. After downloading the update, locate and double-click the **2014PeerSmallBusinessData** installation file.

The installer displays the **Welcome** screen.

2. Follow the directions for each of the following screens.

#### Welcome Screen

Click the **Next** button:

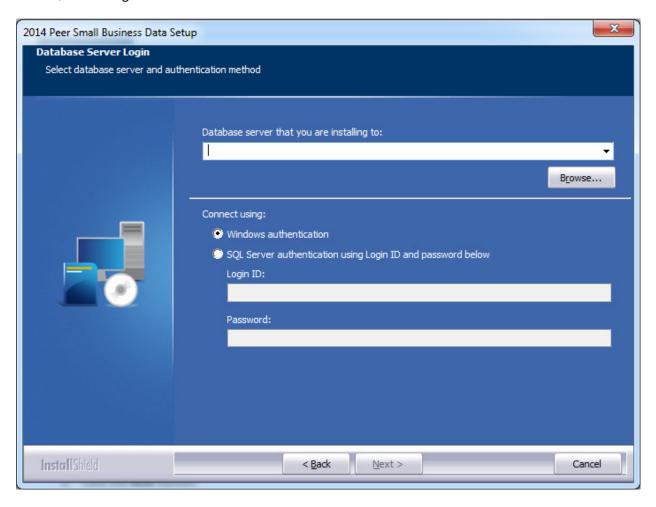

The software displays the **Database Server Login** screen.

#### **Database Server Login Screen**

You use the **Database Server Login** screen to specify the SQL Server to which you are installing to, and also SQL Server login information.

To configure SQL Server options, follow these steps:

- 1. Do one of the following:
  - In the Database server that you are installing to field, enter the SQL Server name and instance to which you are installing the data.

Example: SVRBOS01\SQLEXPRESS

- Click the **Browse** button and in the resultant dialog box, select the SQL Server.
- 2. Choose one of the following authentication options:
  - Use Windows Authentication
  - Use SQL Server Authentication If you select this option, you must also enter your SQL
    Server account User Name and Password in the User Name and Password fields.

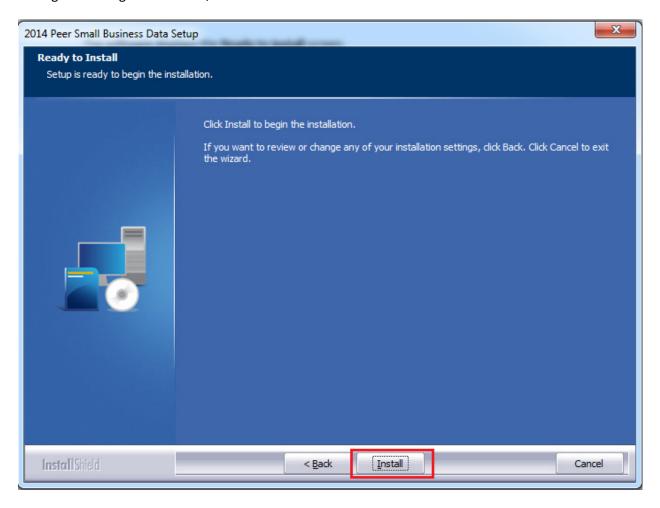

#### 3. Click the **Next** button.

The software displays the **Ready to Install** screen.

### **Ready to Install Screen**

To begin installing the data sets, click the **Install** button:

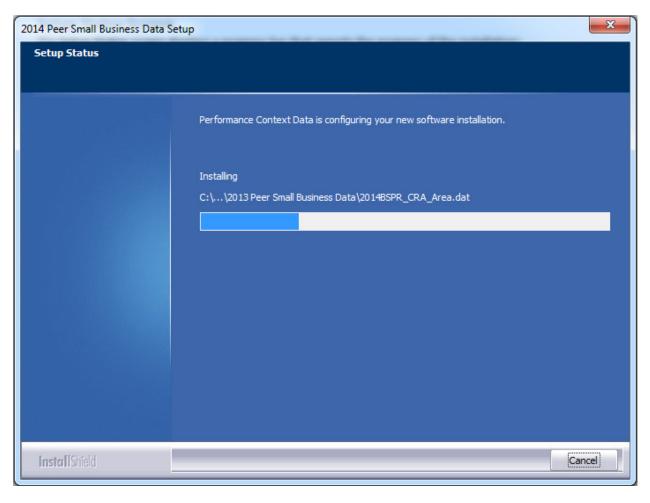

The installer displays the **Setup Status** screen.

## **Setup Status Screen**

The **Setup Status** screen displays a progress bar that reports the progress of the installation:

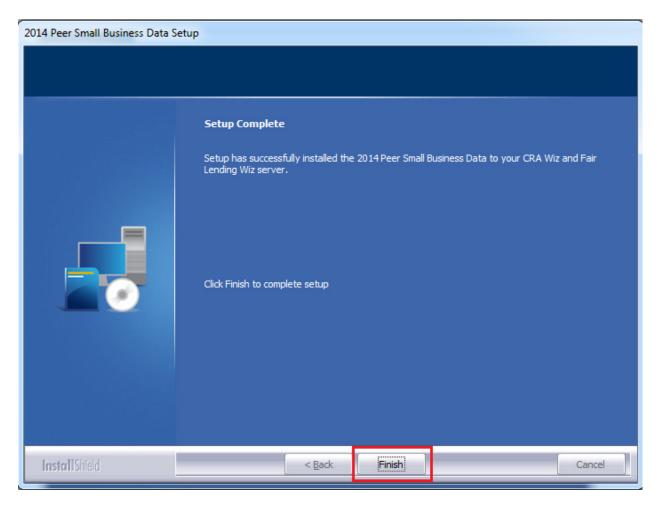

When installation is complete, the installer displays the **Setup Complete** screen.

# **Setup Complete Screen**

Click the **Finish** button:

Installation is complete.
