Overview

This document provides instructions to install the *CRA Wiz* and *Fair Lending Wiz* 6.9 Service Pack 1.0 (SP1) Update.

For a detailed list of updates included with the SP1 update, refer to the [Release Notes](#) section.

Requirements

Installation of *CRA Wiz* and *Fair Lending Wiz* SP1 requires *CRA Wiz* and *Fair Lending Wiz* 6.9.

This update should be applied to both **Client** and **Server** environments.

This update is cumulative in that it includes both the **S020 Hotfix** and **MSA 2014 Update**.

If you have any questions, please contact Wolters Kluwer Financial Services Technical Support via phone at (800) 261-3111, then press option #1; or via e-mail at support@pciwiz.com.

Release Notes

Fair Lending Wiz Updates

Comparative File Review

- Added the ability to export all user defined fields associated with Decisioning and Pricing.
- Corrected issue with exporting reports to Excel. You can now sort columns in a more user friendly way.

CRA Wiz Updates

Interactive Geocoder

- Updated to display census tract boundaries when Activity Year = 2014.
- Fixed an issue where Census 2000 tracts were returned when using Push-Pin Geocoding with Activity Year 2014.

Exporting

Fixed issue where fixed-length files were exported with significantly larger file sizes.

Create Areas > Show Demographics

Resolved an error that occurred in the Create Areas module when you changed the Activity Year from 2013 to 2014.

Installation

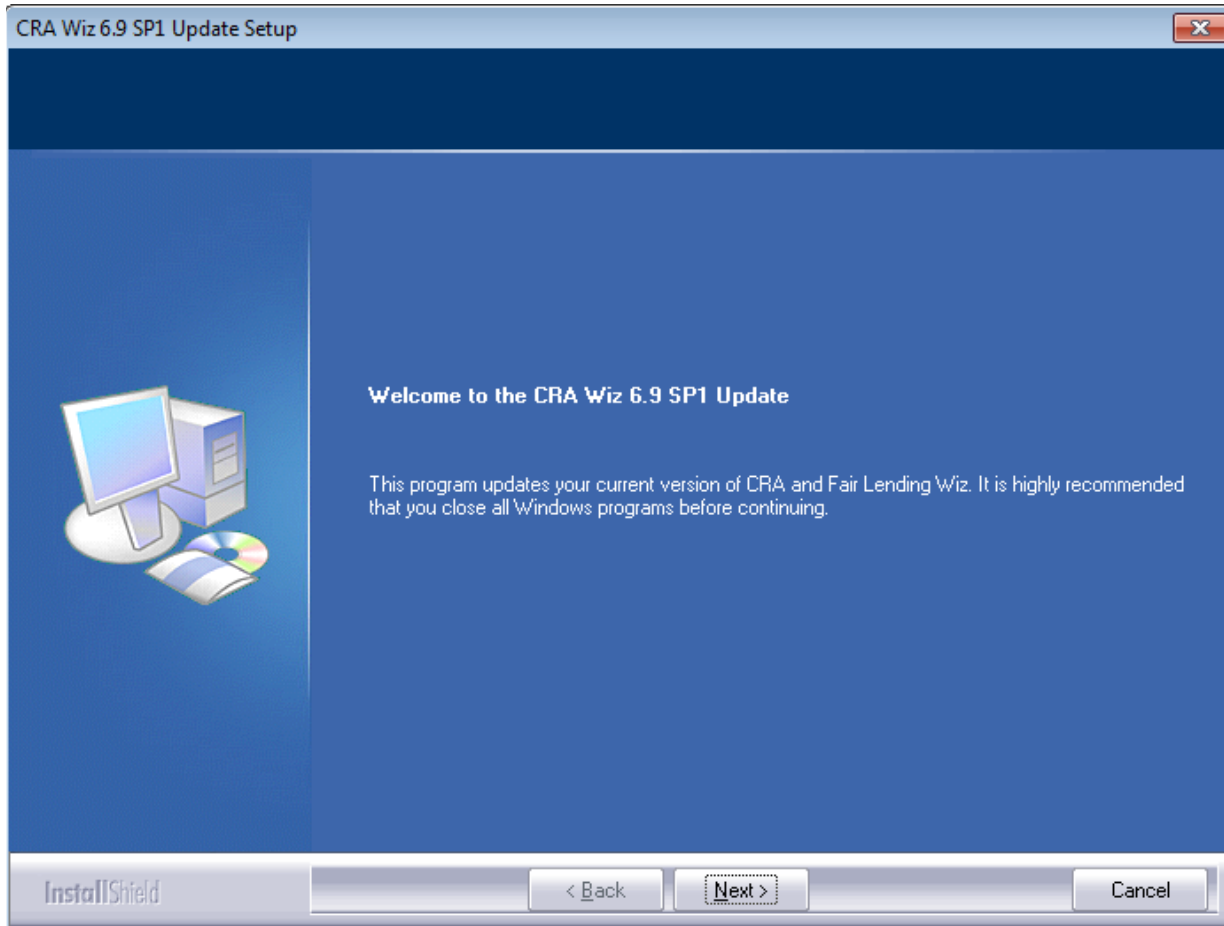

To begin installation of the 2014 MSA Update, follow these steps:

1. Download the **Service Pack 1.0 Update**.
2. Double-click the **CRAWiz69SP1.exe** file.

The installer displays the **Welcome** screen.

3. Follow the directions for each of the following screens.

Welcome Screen

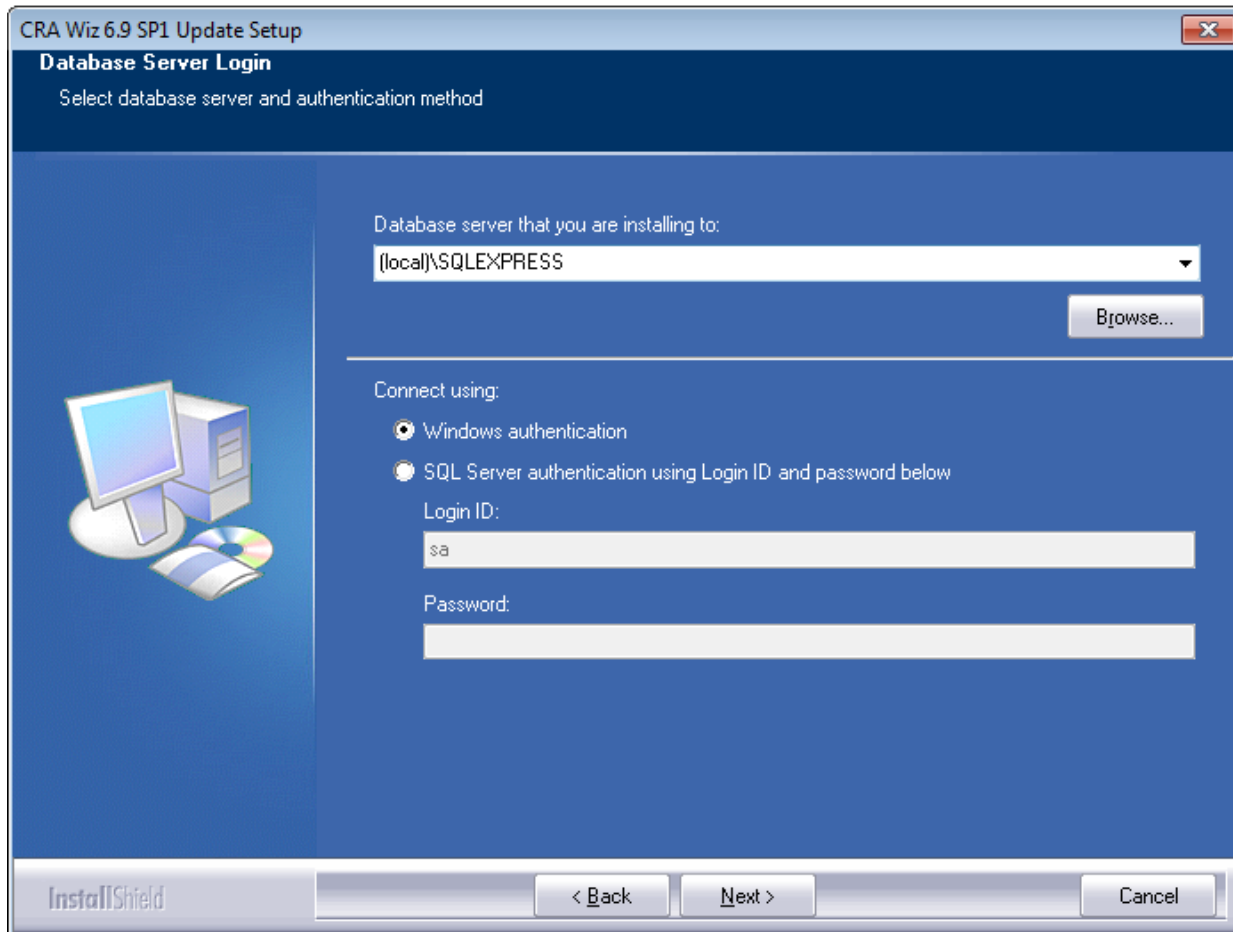

Click the **Next** button:

The software displays the **Database Server Login** screen.

Database Server Login Screen

You use this screen to enter your SQL Server information:

Note: The software displays the Database Server Login screen only if the computer on which you are installing the 2014 MSA Update is running SQL Server. If the installer does not detect SQL Server on your computer, the installer displays the [Ready to Install the Program](#) screen.

In the SQL Server field, enter the name of the SQL Server to which you are installing the data.

1. Choose one of the following authentication options:

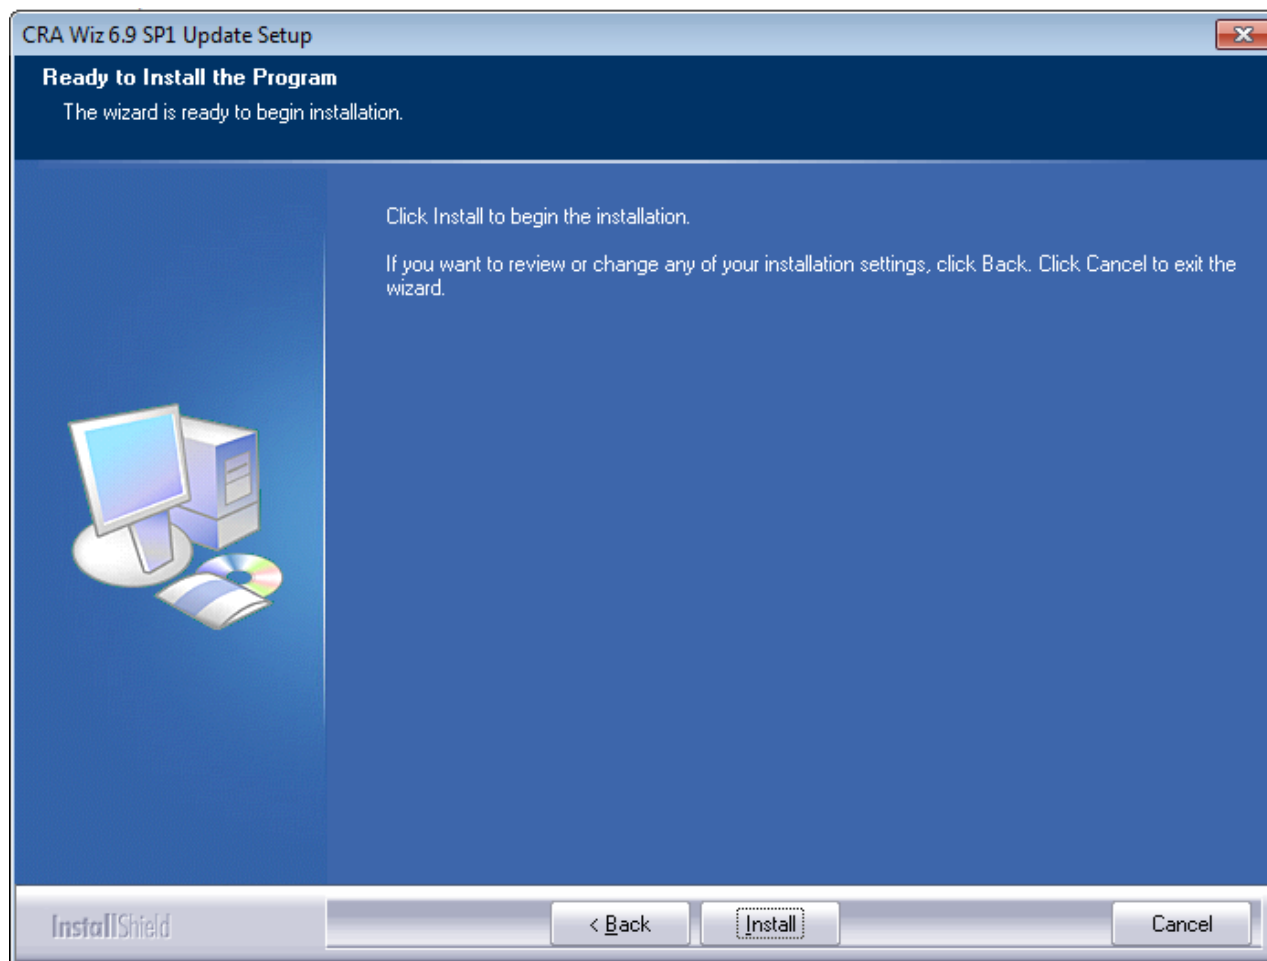

- Use Windows Authentication
- Use SQL Server Authentication - If you select this option, you must also enter your SQL Server account User Name and Password in the User Name and Password fields.

2. Click the **Next** button.

The software displays the **Ready to Install the Program** screen.

Ready to Install the Program Screen

You use this screen to begin the installation:

Click the **Install** button.

The installer displays the **Setup Status** screen.

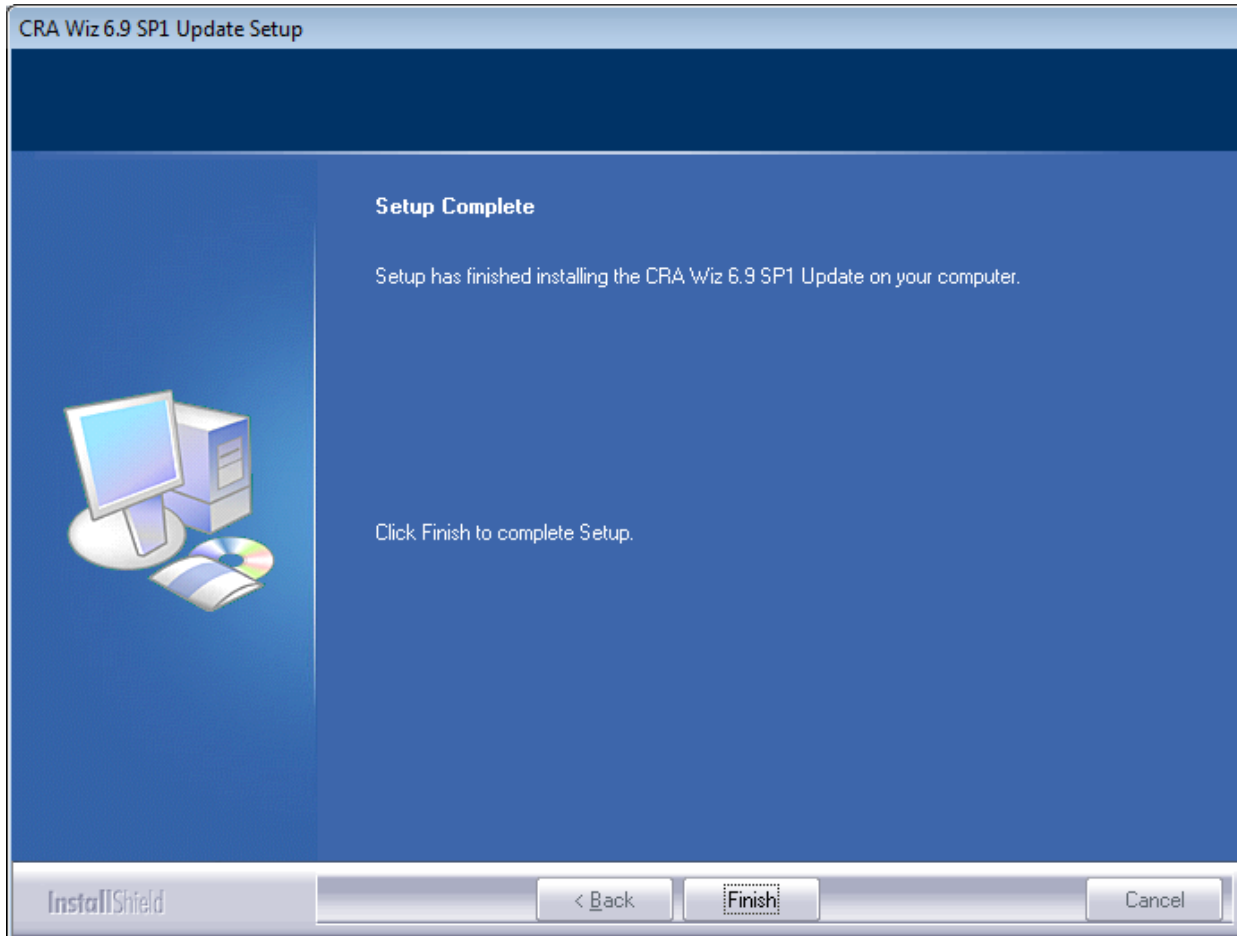

Setup Status Screen

The Setup Status screen displays a progress bar that reports the progress of the installation:

When the installation is complete, the installer displays the **Setup Complete** screen.

Setup Complete Screen

Click the **Finish** button.

Installation is complete.
