Overview

CRA *Wiz* and Fair Lending *Wiz* 7.1 Service Pack 1.0 contains a variety of updates and enhancements. Refer to the <u>CRA</u> <u>Wiz Updates and Enhancements</u> and <u>Fair Lending Wiz Updates and Enhancements</u> sections for detailed information.

Who should install

All clients should install this update.

Where to install

This update should be applied to both the Server and Client machine(s).

Prerequisites

CRA *Wiz* and Fair Lending *Wiz* **7.1** is required to install this update. To check your CRA *Wiz* and Fair Lending *Wiz* version, go to the program menu bar and select **Help** > **About CRA Wiz**. Build numbers starting with "71" are acceptable.

Required permissions

SQL Permission to execute scripts in CRA Wiz databases.

Required free space

Client side: 2.5 GB Server Side: 18 GB

Approximate install time

Client side: 20 Minutes Server Side: 1 hour

CRA Wiz Updates and Enhancements

Create Areas

The **Select Tract By: Zip** option has been updated with **2015 ZIP Code** information. Tracking Number: **32561**

Geocoding

There are street segments in the geocoding data that do not contain State, MSA, County, Census Tract, Block Group or Block information. These segments are no longer eligible for interactive geocoding. When attempting to select street segments in this category, users will see a tool tip message stating the following, "Cannot geocode to this segment as it does not have a valid tract number or State/County."

Workaround: Rather than interactively geocode to these segments, use the **Pushpin Geocoder** to geocode these addresses. Tracking Number: **65185**

Mapping

When you reposition the map **legend** in a map **print layout**, the new position of the legend displays correctly on the printed version map. Tracking Number: **38258**

Replace Commands

- When running a replace command on the **Censustrac** field to populate it with a value of "NA", values in the centroid field will be cleared. Tracking Number: **59958**
- The order of fields now remain consistent when opening saved replaced commands. Tracking Number: 61081

CRA Tables

Note: You access CRA Tables through the Analysis section of CRA *Wiz* and Fair Lending *Wiz* by clicking on the CRA Tables icon:

Please refer to the online Help for information on procedures and report output. To access the online Help, select **CRA Wiz Help** from the **Help** menu in menu bar located at the top of CRA *Wiz* and Fair Lending *Wiz*:

You can also download the CRA Tables User guide PDF (portable document format) using the following link:

CRA TABLES USER GUIDE PDF

Table D Updates

If data is not present in a **Small Business / Small Farm file**, the software no longer displays that line of data on the report.

Tracking number: 55605

Table F Updates

Software no longer double-counts the count, amount, percentages, and totals for lending data with **2016** Activity Year. Tracking number: **67961**

Table G Updates

Software no longer double-counts the count, amount, percentages, and totals for lending data with **2016** Activity Year. Tracking number: **67961**

Table Q Updates

Software no longer double-counts the count, amount, percentages, and totals for lending data with **2016** Activity Year. Tracking number: **68347**

Table S Updates

Software no longer double-counts the count, amount, percentages, and totals for lending data with **2016** Activity Year. Tracking number: **68347**

Filtering Added to Wizard

You can now filter on the files you select in the **File Selection** section of the wizard. Tracking number: **59873**

File Type Evaluation Period

You can now select different evaluation periods for different file types. **Note**: The file will **not** be filtered for the date range selected, it will only display on the footnotes. Tracking number: **55604**

Save Option

You can now save the analysis options you have selected in the Wizard. Information that is saved includes:

- Evaluation Date
- File(s) Selected (and filters)
- Assessment Area(s) selected
- Institution(s) selected
- Branch & ATM data

Tracking number: 48506

Printable Wizard Criteria

You can now print a list of the options you selected in the Wizard including evaluation periods, files, filters, assessment areas and institution(s). Tracking number: **44371**

Fair Lending Wiz Updates and Enhancements

BISG Proxy for Decision and Pricing Regression

Added a BISG Proxy tab to the Decision and Pricing Regression modules.

This change allows you to run BISG proxy on **consumer** types of data. If you have not configured BISG proxy, then the BISG Proxy tab is grayed out:
